

# Mini Project Exhibition

## Department of E&E second year students

Mini project exhibition had been organised by ENEXSA council on **25<sup>th</sup> March 2022** in the Electronic laboratory . 2<sup>nd</sup> year students presented their Digital Electronics mini projects under the guidance of Prof Ankita kanekar . This mini project was conducted as a term work for the digital electronics subject and exhibition fair was specially organised to encourage the spirit of learning outside the curriculum. Along with that some students had replaced old posters regarding experiments lists , components used in the laboratory with new ones.

All faculties of Electrical & Electronics department interacted with students to apply their knowledge they learnt from the curriculum.

The judges for the event were Prof. Suneeta Raikar and Dr. Govind R. Kunkolienkar. Judges Examined all the projects and project ideas and announced the winners of the project fair. The winner was the group of Yashodhan Prabhuborkar, Rebecca Rodriguez, Pratham Kinjavadekar, Swapnil Gawas. Dr. Govind R. Kunkolienkar awarded them with trophy and certificates. Students of other department also attended the event. All the ENEXSA council members contributed their valuable efforts and time in organising the event and marked it as the successful event.
